Temperament

Yards	Crush	Paddock
Quiet: 40 head	Quiet: 35 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

All cows were easy to handle throughout the assessment process. 5 cows became agitated when on the weight platform and when being mouthed however settled quickly once returned to the mob.

Handled With Bikes , Dogs , On foot , Vehicles

Assessor Comments A quality line of 40 eight to nine year old Angus Cows that are PTIC to the Angus bulls SAV Thunderbird and Connealy Amazing who are Nandawar AI bred bulls. They were scanned by Monaro cattle scanning services and by joining dates they will commence calving from mid February . These cows are 643 kg at time of assessment and present in forward to prime condition after all rearing calves in the last season. These cows are proven mothers and produced big sappy calves this season who were weaned off them on the 19th of October and have had no issues keeping the weight on and getting back in calf. These cows present a fantastic opportunity for a purchaser looking to add to or start their breeding operation, they have a lovely temperament, are big framed with plenty of weight and are proven breeders.
