Assessor Comments	9 mixed age ultrablack style cows PTIC to AI bred Nandawar Angus bulls. The Nandawar bulls are from a top commercial Monaro Angus herd. They were PTIC by Monaro cattle scanning services and by joining dates they are due to start calving from mid-February. These cows are 534kg at time of assessment and present in strong store condition. All cows have successfully reared lovely big sappy calves this year which were weaned on the 10th of October and these cows haven't had any issues getting back in calf. These cows were purchased off Auctionsplus in June 2021 and originally came from Lake Nash Station in the Northern Territory and were deemed to be 4-6 years of age at that time.
