Comment on Fat Score 1 Cattle: Waners are in very strong fresh condition and would handle a long travel.

Vendor Bred	Yes
Stock History	Self replacing herd over 90% bred using principally Glenavon, Bald Blair and Eastern Plains Angus Genetics
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	Weaners were sired by Heart and Bridgewater Angus bulls.
Grazing Conditions	Dry Improved and native pasture. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Health Treatments	Vaccinated 22/11/2025 7 In 1 Second Dose
Vendor Comments	Cattle would normally be taken to much heavier weights but due to dry conditions calves have to be taken off early. Weaners are in great condition and should thrive going forward.
Temperament	Yards Crush Paddock

	Quiet: 29 head Slightly Stirry: 1 head	Quiet: 28 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	weaners were great to handle for unweaned calves and showed no real unsettled behavior.		
Handled With	Bikes		

Assessor Comments	A cracking line of well bred Angus X Angus steer weaners on offer that wont disappoint, a great chance to beat the rush and secure your weaned calves now. These steer weaners present in great forward condition and were bred out of large frame cows that consist of Glenavon, Bald Blair and Eastern Plains angus genetics. Steers are usually weaned off the cow and kept to heavier feeder weights but given the continuing dry conditions of the area and lack of feed a continuing decision has been made to keep selling calves to ease the numbers. Off the back of great New England Angus genetics these calves will suit all Angus backgrounding, feeder or grass finishing markets going forward. Ideal low dollar Articles to put away for when the rye grass and oat crops come up !!
Assessor	**Steve Daley (Level 1 Accredited)**
