Heifers were running with their calved sisters which are also being offered in the same sale, were quite difficult to draft having small calves amongst them and became slightly stiry. Did settle however after weighing which photos and video show

Assessor Comments	A line of forward condition 2yo Red Angus heifers that are suited to feed on or join. Gregory Red Angus is a closed herd and carry JBS Farm Assurance accreditation. Two to two and a half year old heifers that several had lost calves of spring due to the very wet conditions. Well covered heifers with two heifers becoming stiry during assessment which was disappointing, however settled afterwards as photos and video will show. Ideally suited as future breeders to add to an existing herd but personally would not recommend small acreage.
