Cattle are generally very easily handled, some cows may stir if hard pressure is applied particularly when singled out. Cows only ever see one person, so are used to them.

Assessor Comments	20x20 Angus X Cows and Calves, with the cows averaging 477kg after a 17 hour curfew with sizeable calves at foot, which after the same curfew and off their mothers averaged150kg. Cows are moving forward, after an overly wet and cold winter in the east, and have been doing a fantastic job looking after their calves. Sister lot in the same sale. Cows and calves are only being offered as they do not fit the calving program of the vendor. Cows are up to date with drench and vaccinations. They will be delivered to the Tenterfield Sale yards. Older cows were all mouthed in good sound order and will have plenty of years left in them, one cow was starting to ware slightly, and one was missing a middle tooth, not from age. *Please note, calves were weighed all together with the sister lots calves, then mothered after assessment*
