Temperament	Yards: Quiet: 10 head, Slightly Stirry: 10 head Crush: Quiet: 10 head, Slightly Stirry: 10 head Paddock: Temperament not assessed in Paddock Cattle are very settled when in larger yard, and when only a small amount of pressure is applied, although typical of northern bred cattle, do like plenty of room when working in small spaces, and do tend to stir if singled out. Generally it was very easy for the vendor and myself to draft the cows.
Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	20 Brahman X Cows and Calves, of which the cows are doing a fantastic job on their calves, and had an average weight of 391kg at assessment. Cows are all frame, and no condition, and after a wet and cold winter, are just starting to get a fresh pick and power ahead. Shown proper nutrition, these cows should offer massive compensatory gains. Cows are bred around Charters Towers, and have been handled very well since they have been on the vendors property. These cows were extremely happy when put into a larger yard for photos, and allowed us to walk around them without stirring up. Generally well behaved. One cow with a slight twist in the nose.
