Assessor Comments	A good line of very forward condition 4.5 year old ewes, June July 2019 drop. They will present in mostly fat score 3's and 4's. They are 2019 drop ewes, and have been sample mouthed as good strong sound mouths, with the very odd ewe just starting to lose its wing teeth.. A number of these ewes were purchased from the vendor's cousin, who runs on the same bloodlines. They are "Centre Plus" bloodlines, and are well known for their wool quality, while being able to combine that with very good frame size. the vendor also has a Xb lamb production programme, selling trade weight lambs over hooks every year, which complements his wool production. He has just recently sold his merino wether lambs. The vendor is selling his ewes as part of a flock reduction exercise. The Vendor has been on Centre Plus bloodlines for many years now. Anything with a busted udder or showing any signs of lameness have been drafted out, as well as a tail out of the bottom end. A good tidy line of ewes.
