Heifers are well handled will stir under pressure but soon settle. They did not enjoy being in the crush after being preg tested last week. soon settle once with their peers.

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: A nice line of one mark heifers, Joined up to the high quality Jarowa sire Q26 selected for calving and low birth weight + 2.8. These heifers are soft, fleshy and present very well. Ideal young heifers to help rebuild your herd. They have had a good joining period. They moved through the yards well and stood in a large paddock for photos. They where purchased from A local Walcha producer of and have really powered ahead since arrival. Odd heifer with a slight Blue eye. Not detrimental. Heifers did stir up in the crush and confined places. soon settled once left alone with their mates.
