Assessor Comments: A good even line of mostly Angus with some Angus/Senepol X heifers, 275 to 325 kgs to avg 310 kgs (14 HOURS OFF FEED). An obvious tail has been removed. (one heifer with pink eye on the offside eye, treated at assessment) These heifers are not station mated, have been scanned undetectable and are easy to handle both in the yards and paddock. They are fresh in the coat and going ahead well in condition. This is a fantastic opportunity to buy good quality Chesterfield replacement heifers! (Agent happy to scan tags for buyer at no cost if required). Additional two lines of heifers in this sale as well.
