Assessor Comments	Quite quality line of young EU cows with their second calf at foot. Cows are doing a great job on their progeny and are ready to be joined. Cows are originally from cow herds based on Clunie Range & Eastern Plains genetics and would be an asset to any herd large or small. Calves at foot are sired by an Angus/Angus Simmental composite bull. (Please note that 7 cows have white on udders, 2 cows minor cloudy eye. Cows were noticed to be showing signs of rubbing)
