Comment on Fat Score 1 Cattle: Steers are in a strong store condition with minimal fat cover however are all fit and healthy and simply adjusting to green feed. no concerns trucking long distances. Steers have all been trucked as weaners and would anticipate no problems trucking in excess of 800km without spelling.

Very well educated weaners with extensive handling with dogs and bikes. Mustered easily in the paddock and worked through yards with no concerns at all. Small percentage turned around in the race or baulked at the scales however all walked over again easily and with little to no stress. 100% settled quietly and easily after drafting content to lay down and had to be pushed away for photos.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles

Notable Traits

	Traits
20 Head	small percentage showing signs of ringworm
10 Head	small percentage with some fly irritation

Assessor Comments	A good quality line of light weight weaned Steers in store condition and ready to continue ahead. Steers weaned in October 2023 and have lost all their milk fat and are firing ahead on a fresh green body of predominately Mitchell and Flinders Grasses with summer herbage present. 100% vendor bred out of soft brahman and Brahman cross cows by Charolais, Charbray, Brangus, Droughtmaster and Brahman Bulls. Good medium frame Steers that are well suited to southern markets being predominately soft Brahman cross and Charbray types with minimal hump and cleaner coats approximately 26hd in this lot would be considered high grade Brahman.. 100% weighed at assessment after 4 hours off feed and water with 4% curfew deducted for buyers piece of mind . Exceptional temperament and very well educated these Steers are a pleasure to handle in both the paddock and the yards. All the hard work is done on these Steers simply drop them in the paddock and watch them grow!
