Heifers flowed through cattle yards with ease. Cattle were all handled through round yard at assessment with only a small amount stirring up in the confined space under pressure but once back with the mob settled straight back down. Heifers need steadying up through gateways.

| Assessor Comments | Buyers 81 PCAS eligible Santa & Santa X heifers that are all frame with plenty of compensatory gain to be had. Heifers are out of a very fertile cow herd that are known for producing cattle to perform on grain and grass. Heifers have had a chance with bulls with only a couple of heifers showing some signs of calf but a majority weight related. Mouthed all 20 x red tags heifers (2022 Drop) head at assessment which was a mix from lighter weight heifers through to heavier heifers with 9 x milk teeth, 9 x 2 teeth & 2 x 3/4 teeth also mouthed 10 x blue tags (2023 Drop) with all presenting as milk teeth. Buyers heifers are starting to go ahead with an opportunity to freshen up and trade on or keep a run of replacements out of them. |
