Heifers handled very well, especially for Northern cattle. Moved freely through each yard without too much rush. No banging hips on gates, or climbing over one another. Led up the race very easily, mostly self feeding through and not needing too much hassling. All stood well on the scales, and exited sensibly. Cattle that were easy to handle through entire assessment.

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
2 Head	Small Vacc lump on neck

Assessor Comments: Long bodied, true to type Brangus Females. All deep, shapey bodied heifers with smooth slick skin. Heifers that will throw a 3/4 Angus calf, giving it that good British shape & yeild but with the added Bos Indicus softness. Ideal lot of heifers to take North, add to part of an existing herd and calve down.
