Handled With	Very good cattle to handle							
	Bikes							
Assessor Comments	A very well bred line of Hereford and Poll Hereford heifers and calves with all the hard work done. These heifers are Thornliegh and Hurley blood originally bred out of Qurindi and bought as PTIC heifers. These heifers are medium to large fame and are ready to jump ahead after coming through a cold wet winter. The calves were born over 18 days and are by Trangie AG Angus bulls and have been marked and vaccinated. These heifers and calves were very easy to draft and worked well in the yards, they present a outstanding opportunity to purchase quality young breeders. These units will not disappoint given the right opportunity.
