Assessor Comments	An even line of Angus Heifers that are ready to take to the next level. They would suit a backgrounding operation into a feedlot or keep as replacements. The heifers have been weaned for approximately 6 weeks which means they are ready to go forward. They have had a long acting drench as well as a Multimin injection. Finding weaners not full of milk this time of year is not easy. Here's an opportunity to put a good run of Vendor Bred weaners together. Note 2 lots of brothers in the same sale.
