	Slightly Stirry: 3 head Stirry: 1 head	Slightly Stirry: 7 head Stirry: 1 head	Paddock
	Cows handled well with a noted amount becoming slightly stirry when weighed. One cow in the mob seems to have a temperament issue more than the others (looking for a way out), not aggressive. These cows were surprisingly quieter than expected when purchased from Qld. Overall - I would be happy to purchase these cows for myself.

Assessor Comments	Angus cross and Angus Ultrablack X cows PTIC to Crawford Angus R72. These cows were purchased as cows and calves from QLD earlier in the year and being joined to an Angus bull with produce calves with great hybrid vigour. Expected to commence calving late February. Ideal article to take on and calve down. Please note 2 cows noticed with larger udder/teats, 1 noticed with lump/seed under jaw.
