At assessment Steers were free moving and would get very agitated when you put pressure on them or when they were in confined space. Steers were good to handle in the paddock and walked into the yards nicely handled by bikes and dogs. Would recommend further handling in yards to slow Steers down when under pressure.

Handled With Bikes , Dogs , Horses

Assessor Comments A good line of weaned Euro Cross Steers. These Steers are the leads of the 2024 weaner Steer drop and show exceptional weight for age. Steers are very good thick set types that show good softness, depth and length of body. These Steers are all vendor bred out of the vendors Crossbred Cow herd and are all by Pitkin's Simmental Bulls. Steers are ideal for a backgrounding operation to take through to heavier weights to suit Domestic and Export markets.
