Assessor Comments	A very good line of classed in PTIC Heifers only being offered due to the whole herd being dispersed. These heifers were due to be retained and as such carry terrific class and attributes. Carrying good weight for age, depth and length of body along with width between the hips these heifers will mature into quality large frame females. Joined to a LBW Bongongo Angus bull to commence calving approx. 16th July these heifers would be a welcome edition to any herd or a terrific start up. Highly recommended.
