Assessor Comments	16 x16 NSM Station mated Angus Cows with calves at foot. Cows are Temania and Ardrossan blood purchased from the same vendor over two years ex Euroa weaner sales. Marked calves at foot are August/September drop sired by Prime Angus stud bull. Good honest moderate framed cows that present in prime condition and are doing a great job on fresh healthy calves at foot that average 144 kg full at assessment. These are easy doing middle age breeders that have never missed a joining and calve unassisted every year, would make great addition to any commercial herd or are quiet enough for smaller holdings.
