Assessor Comments	A small line of Charolais Heifers & Calves 393kg average at assessment going back to HCR Success (USA Sire) blood. These heifers present in forward store condition coming through a cold and wet winter doing an outstanding job on their calves at foot, with the calves averaging 84kg at assessment. With the season in front of them given the opportunity they will continue to go forward. They would be ideal take home and join to a bull of choice and retain or trade on.
