Cows moved through the yard well when being drafted off the larger mob. All cows were mouthed and did not enjoy this

	part of the process. One cow was agitated in the yards and continued to pace around the larger yard while being photographed. It is worth noting that the cows had been in the yards for 5 hours and had been up the race twice.

Assessor Comments	12 PTIC vendor bred Shorthorn Angus cross cows. These 7-year-old cows are PTIC to Lawson bulls to commence calving in mid-August for tight 7 weeks. Cows are medium to large frame, in forward store condition and are sound in structure. Bulls are selected with easy of calving in mind and a focus on 400DW. These seasoned females all had big weaners taken off them in April and expect another drop of high-quality calves in August.
