Assessor Comments	A very good line of vendor bred Angus Steers. These Steers are very well bred being by TeMania Angus Bulls and out of a well known Cow herd within the Goondiwindi District. These Steers are well known for their feed performance and are in ideal condition to carry through to heavier weights. Vendor focuses on good 200-400 day performance, EMA and IMF. Steers are an ideal article to put onto a winter crop to take through to heavier weights to suit Domestic markets. Please note 2 Steers were noticed at assessment with active eyes and were treated at assessment, with 5 Steers having old scarring on their eyes but are not detrimental. Please see photos for further satisfaction. Buyers bid with confidence this is a very good line of Steers.
