Excellent cattle to handle for weaners without a lot of education. Odd steers was a little bit unsettled on the weigh platform but nothing unusual.

Assessor Comments	Complete drop of September/ October '23 drop Angus & Angus Cross weaner steers that averaged 251kg full (211-297kg) at assessment. These steers are sired by Hazeldean and Kunuma Angus bulls out of a predominantly Angus cow herd with some Santas / Angus x Santa cows in the herd. Cattle are run on predominantly native pasture country in the Kosciuzko National Park and always perform wherever they go. Ideal line to grow out to suit either feeder or kill markets - steers are grass fed and antibiotic free eligible.
