Assessor Comments	14 weaned, vendor bred, EU accreditted steers that averaged 363kg at assessment. The Pavlire calves are sired by Hicks Composite Bulls with a focus on IMF and high growth when selecting sires. Steers present in store condition with plenty of frame and bone, ideal to either feed on or finish on grass. These tops of the drop steers would normally be kept and grown out to heavy feeders but due to dry conditions they are been offered for sale. Please note: In this consignment there are 10 black and 4 red steers. One steer with white coming up to the naval.
