	Vaccinated	18/10/2022	PG Vaccine (not all)
	Other Treatment	18/10/2022	Tixaflay (plunge dip)
Chemical Residue	Clear - No known history		
Eligibilities	PCAS Eligible		
J-BAS Score	6		
Vendor Comments	Normal annual turnoff of surplus heifers. These heifers have had no grain and no antibiotic and as such will sign a PCAS Declaration.		
Joining Details	Not Station Mated 100% Pregnancy Tested Not Detectable		
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 12/09/2022		
Joining Access Details	A Brangus bull was noted in herd up until about 6 weeks ago for a short period of time. Vendor pregnancy tested these heifers at assessment. Anything that was pregnant was discarded and any heifers that were in doubt were needled with a PG vaccine.		
Temperament	Yards	Crush	Paddock
	Quiet: 70 head Slightly Stirry: 20 head Stirry: 15 head	Quiet: 80 head Slightly Stirry: 20 head Stirry: 5 head	Temperament not assessed in Paddock
	Heifers were pretty quick in most areas of the yards. They do tend to gallop about when spooked in the bigger yards but nothing that could be considered aggressive. Like all cattle they need to be steadied through gateways etc. These heifers don't look to have had the handling that these cattle get in most years. Most heifers resented being pregnancy tested and this not abnormal.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	Buyers a 4 deck line of PCAS ELIGIBLE heifers best described as Composites (mainly the Angus and Brangus types) bred out of crossbred cows. These would suit for feedlot entry or could be taken to heavier weights off crop or improved pastures to MSA domestic slaughter heifers. Highly suitable for restockers looking to rebuild breeder numbers and are ready to mate to the bulls of your choice. There were 8 in the line that were injected with a PG vaccine as it was thought they were in the early stages of pregnancy. Most are flatback types with only 3-4 with a bit higher Bos Indicus content with a bit more ear and slight crest visible in photos. Noted 5 heifers with buffalo fly rub. Also, about 5 with some brindle colouring in the coat. All guaranteed for clean country entry and will scratch clean on farm. These respond well to horses, bikes and dogs. There is also a lighter 2 deck black line in this sale that could go with them.		
Assessor	Bob Jakins (Level 1 Accredited) Phone: 0419 788 366		
Delivery Period	27/10/2022 to 28/10/2022 (2 days)		
Delivery Point	"Mt. Wandoo" yards 44kms N/W of Springsure.		
Ticks	Please note that cattle are in a tick infested area. Vendor guarantees clear of the dip		
Clearing Point	Clearing facility (Vendor to transport to clearing facility) Heifers will be scratched clean on farm on Thursday 27th October. For interstate entry they will still require a plunge dip at Rolleston or Moura at buyer expense.		
Agent Contact	Andrew Scott Mobile 0428 824 824 Work 0428 824 824 Email andrew.scott@elders.com.au		
Trucking Access	B-Double and road train access. Wet weather will prevent entry to load.		
Delivery Comments	Delivery can be Thursday afternoon 27th or Friday morning 28th. Trucks to await confirmation of tick clearance before they leave.		
Trading Terms	Intending buyers be advised Elders terms are strictly CBD unless debt can be accepted by a nominated agency or an approved Elders account is in place.		
Movement Restrict.	Located in a tick area. Pre-treated at assessment with an injectable and a plunge dip. Will be scratched clean on Thursday 27th on farm for entry to clean country. No risk to buyers entering clean country. Interstate entry still require a plunge dip [Please note: It is the responsibility of the Purchaser to satisfy all state compliances in regard to the movement of this lot.]		
Special Conditions	Buyers to submit all delivery instructions in writing post sale including all information required for the NVD.
