	These weaners are settling down very quickly. They will be tailed out and handled further between assessment and delivery so would envisage these will settle down even more by then. They are not totally yard savy just yet so odd heifer is easily spooked and most will always follow ring leaders. Nothing that could be described as aggressive in the mob in the bigger yards and they still need to be steadied down through a gateway, not unusual.

Assessor Comments	The Consuelo EU ACCREDITED Santa backgrounder heifers that come with a great reputation. Regularly offered on A+ that always attracted plenty of repeat buyers who have commented on the great performance these heifers deliver them. Most show good length and depth of barrel. These heifers look to have had no sign of any setback, a few of the lighter heifers are a bit dried out but not stunted. They are loaded with eye appeal and have a plenty of breed character. Lightweight heifers ideal for restockers to put away for the long term as future breeders. Clean country buyers note they are offered GUARANTEED CLEAR of the dip. Noted approx. 3% with a small amount of old Buffalo fly rub and a small number with old ring worm scarring, no issues expected here. Also a few with some white markings on the underline. Noted approx. 5 with slightly enlarged naval. 8 decks (328) of these heifers pure Santa heifers offered in 4 lots to be delivered into even lots if purchased by different buyers.
