Assessor Comments	18 quality Angus heifers PTIC to a low birthweight 'King' Angus bull. These heifers are the second draft and are a more moderate frame type of heifer. They were purchased in early 2023 from the Forbes store sale as weaner heifers as part of the 'Waugan Park' dispersal. They have grown into mature heifers who are in ideal calving condition. They were joined to specialist heifer bull RHB21S42, from ' King' Angus bull stud for a 10 week joining. These heifers were a pleasure to draft and assess and will make honest reliable mothers. Buy with confidence. Buyers note: 3 heifers with blue eye scaring that was considered not detrimental to their vision.
