Assessor Comments: 11 x Angus steer calves, 303 kgs full. Aug/Sept drop 23' All good Fleshy skins with plenty muscle shape and depth of body. Well handled cattle that are a pleasure to work in the yards. All calves were yard weaned with Silage on the 3rd of June for a week plus drenched and booster vaccinated and have responded well to pasture since. Going forward these steers have

	had a great head start and im confident they will continue going ahead rapidly The lead draft of 41 steers are in the sale also, so could potentially put 52 off the same place.
