Assessor Comments	A small line of heifers and steers out of large framed angus cows by a Limo bull. They have been weaned and supplementary fed milled lucerne hay with oats and barley, while running on natural grass. These heifers and steers show plenty of potential to grow into shapey cattle to suit domestic or export markets. These heifers and steers are an ideal opportunity to secure a small line of cattle with great potential only on the market due to lack of feed at current location. Buyers please note - 1 heifer has abscess on jaw- not detrimental (see photos)
