	Steers were very good to handle and work through the yards, a credit to the vendor. One steer became unsettled while under the pressure of weighing.

Assessor Comments	Buyers, an opportunity presents itself to purchase a line of 16 light weight weaned Angus & Angus infused steers. These steers present in store condition and will offer plenty of compensatory weight gain once settling into their new environment due to having been fully weaned & handled. Steers show all attributes to make great future feeders or bullocks, and will excel on grass, crop, or grain. The group are very good to handle and would be easy to have around. Buyers please note, two steers presented to have lice rub on neck at assessment. This is a rare opportunity to grab a line of light weight flatback steers, with the bonus of being located right on the Warrego highway. Please see photos and video for full satisfaction.
