Other Joining Details
Joined to quality Clea ANgus bulls for a mid-August calving

Temperament

Yards	Crush	Paddock
Quiet: 56 head Slightly Stirry: 4 head	Quiet: 52 head Slightly Stirry: 8 head	Temperament not assessed in Paddock

Well handled cows. Flowed through new yards well, especially being back in from preg testing. Odd cow got excited in crush but settled back in mob quickly. Odd cow was quick between yards but nothing dramatic.

Handled With
Bikes , Dogs , Horses , On foot , Vehicles

Notable Traits

	Traits
1 Head	White flank/ in front of naval
11 Head	White on udder

Assessor Comments
A B-Double load of good quality, PTIC Angus cows. Clea Angus born and bred but were sold as heifers to Mt Falcon Station (Tooma) but purchased back as PTIC cows when the drought broke on the Monaro. Cows are joined to high quality Clea Angus bulls to calve mid-August for 6 weeks. These cows have a big reputation for production, with Clea classing heavily each year on fertility and structure. Calves from these cows are purchased by Rangers Valley Feedlot year in year out. High quality herd that would be an ideal opportunity to secure some good genetics. Could also be purchased as an option to calve and trade. PLease note: Clea Angus PTE heifers in same sale. Cows were checked for any structure issues and were removed at assessment.

Assessor
Damien Roach (Level 1 Accredited) Phone: 0427 253 250
