When moving from the paddock to the yards they were content and grazed the sides of the road. Got a little quick on their feet when realizing they were corned in the yards. Walked up the race to the scales without any push but got a little eager

	to get of the scales once trapped in there.

Assessor Comments	Middle draft of 60 Heifer Weaners out of 140. Well bred Heifers that have plenty of frame and stretch to grow into ideal future Breeders. Noted performers in backgrounding and feedlot operations with a tonne of breeding. These heifers are grass fed only and antibiotic free for any producer wishing to target that market. All heifers were weighed in a tight weight range of 300 to 350kg. Please note there are 7 heifers that do have a splash of white around the teat area.
