Temperament

Yards	Crush	Paddock
Quiet: 22 head Slightly Stirry: 3 head	Quiet: 20 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

The steers were good to handle through the yards, flowing freely. They loaded easily into the force, race and crush, with only a few becoming nervous. They settled quickly once released and back in the group. Typical young cattle, that have only recently been weaned . The vendor mustered on his own on horse with one dog. Please view videos.

Handled With Dogs , Horses

Assessor Comments A quality line of EU accredited weaner steers. Showing plenty of frame and weight for age. Would suit to feed for premium domestic markets or grow on to heavy feeders to finish on pasture or grain. To date the steers have had no grain supplement so would qualify for premium grass fed markets. Showing good bone, the steers are fresh and ready to go ahead. Handled well through the process, please see temperament comments. Please view photos and video.
