Steers were settled in bigger yard prior to assessment. Once steers started being worked through yards they became unsettled and would run as mob to corners of yards and could be hard to block at times. A lady was working in the back yards and force without drama. Once in race and crush a% steers settled, % were slightly unsettled and a % tended to push and jump around in crush becoming very unsettled. Not suitable for hobby farmer but experienced cattle people should have no trouble.

Assessor Comments	36 good quality EU accredited Angus x Angus weaner steers presenting in healthy store condition that had an average at assessment 293.6kg after a -5% curfew. A line of well bred steers showing good growth and weight for age suitable to background, feedlot or to fatten on oats. Please note; Delivery comments, Temperament comments, Large % of steers settled once released from head bail into bigger yard. During photos steers were settled when given plenty of room but would spook easily.
