Temperament

Yards	Crush	Paddock
Quiet: 24 head	Quiet: 22 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Quiet, easy to handle heifers that worked through the yards with a minimum of fuss. Had only been preg tested 1/2 an hour before assessment so had a little more run in them than usual. From a herd that is of a quiet disposition

Handled With	Bikes , On foot , Vehicles
Assessor Comments	Soft, feminine females that are PTIC to Low Birth Weight Angus Bulls to calve over a tight 46 day period. Moderate framed, roomy heifers from a high grade, productive & fertile Angus herd that should be an asset to any property. Heifers have grown out well and are not carrying any excess condition. Noted at Assessment were 1 x Heifer with a short bobtail, 5 x Heifers had white around the udder but not forward of the navel (see photos for largest white area) and there was a small amount of wart of a few Heifers. Vendor also has another 8 x PTIC Heifers same description & joining in this same sale, only selling separate as they were purchased in as calves on cows and are not vendor bred.
