Assessor Comments: Opportunity to acquire quality EU accredited PTIC Angus cows & calves. These cows are Rennylea Angus blood & are 3.5 years of age. They are showing excellent maternal instincts putting everything into their calves that are 5-6 months of age & weighed 258kg at assessment. Rennylea Angus bulls have been used exclusively through the herd for 30 years selecting for bulls that will produce a fast growing calf but maintaining a moderate framed herd. They are genuine 3in1 units that are only for sale as they are surplus to requirements. Ideal breeders to top up numbers with or for the smaller lifestyle block.
