	Very well handled and educated cattle.		
Handled With	Bikes , Dogs , Horses		

Assessor Comments	On offer here is 28 Mungalla stud, predominantly polled Droughtmaster heifers. The Mungalla herd is packed full of top of the tree Droughtmaster genetics with the Atkinson family foundation members of the breed, they have been breeding Droughtmasters for well over half a century investing heavily into the best genetics over those years. The Mungalla cattle have always been strictly culled on temperament, fertility and quality. These heifers are part of the annual turnoff of heifers excess to requirement and would make a great addition to any breeder herd. These heifers are stud calf recorded (able to be registered at buyers expense) As higher quality and even line of Droughtmaster replacements as you will find anywhere. Note the odd heifer has fly rub marks
Assessor	**Jordan Wenham (Level 1 Accredited)**
