Assessor Comments	30 Fully weaned steers that tick the boxes for an ideal opportunity to trade - bred in light mulga country, frame and huge compensatory weight gain benefits plus the addition of a quiet temperament to let straight out into the paddock. Weaner steers are all soft easy doing cattle that would perform into heavy feeder weights. Good frame and an overnight curfew to average 285kg. The tail end has been removed. One steer has stronger male characteristics due to being castrated a little later than the balance of the steers. With another exceptional session shaping up don't miss an opportunity knocking!
