Assessor Comments	A line of good quality vendor bred Droughtmaster and Simmental cross yearling steers presenting in forward store condition that have an estimated average delivery weight of 347.5kg. Buyers this is a great opportunity to purchase a line of very well bred PCAS eligible steers that are renowned for their doing ability. Steers would suit a backgrounding operation for the heavy export feeder market or show the potential to be grown out to heavy bullocks on either grass or grain at a young age. Please note; 1 brindle steer in mob.
