These cows were good to handle in the yards & through the crush at assessment. Cows are very free moving through the yards. Cows that were slightly stirry & stirry in the yards were from being held up in the pound. The cows that were slightly stirry or stirry in the crush were from being isolated or made stand on the platform too long. Cows were good to walk through in big yards. These cows need to be respected when in close confines. Cattle that have been handled by good stockmen/women.
