Assessor Comments	A line of Vendor Bred Yearling Steers, sired by Texas Angus Bulls out of an Angus Cow herd. At assessment the Steers weighed from 279-388kg to average 335kg full with a projected delivery weight of 318kg - Steers were locked in the yards overnight although there was plenty of green pick so a full 5% curfew has still been subtracted. The Steers present in a forward condition and stand on good frame and bone and should continue to grow into quality feeders. Please note that the heaviest Steer (388kg) during the assessment was noted to be lame, he was treated and will be removed if still showing lameness at delivery. To assist with transport the Vendor will deliver to the Tenterfield Saleyards. Sister line in same sale.
