Preg Tested?	Yes, this lot was pregnancy tested, by Delatite Veterinary Services. (Vet) on 13/03/2024. 8 Head (100%) PTIC, from 5.5 to 7.5 months (at time of assessment 30/07/2024). Certificate Available.
Other Joining Details	Buyers please Note. Vendor willing to have cows re-preg tested at delivery for buyer confidence.

Temperament

Yards	Crush	Paddock
Quiet: 8 head	Quiet: 8 head	Temperament not assessed in Paddock

Very docile natured females. Almost needed to push them around the yards by hand to draft. All led up the race very quietly, One cow was so quiet she actually became quite stubborn, needing a little prodder persuasion to get moving, despite this she never became upset of stirry. Very quiet females that could be handled by a stock person of any experience.

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
1 Head	Old minor eye blemish, non detrimental.

Assessor Comments: Nice line of young to middle aged Hereford cows. PTIC to Days White face & Injermira Hereford Bulls. Docile natured, structurally sound females in the prime of their productive lives. Joined up with the intention to calve down, only offered for sale due to the tightening os the season. Very quiet females that have shown good fertility, all getting in calf within a short window despite the ordinary seasonal conditions at joining. Gestational aged at preg testing; on vets advice, heifers should commence calving around September 6th, most within the first cycle, with just 1 left to calve by November 10th. Buyers please note. Vendor has another lot of the older females in the same sale. Many are mothers to these females.

Assessor: **Katie Lewis (Level 1 Accredited)**
