Assessor Comments: 72 PTIC compostie cows in good forward condition. These cows are joined to Tennysonvale Simental Bulls and one Rockingham Santa Bull. They are predominately Charolais & Droughtmaster infused cows and were good to draft and handle after 3 days of mustering, preg testing and assessing. These cows were purchased as PTIC Heifers in 2021 from Condamine & Anakie and have done a great job on their prior calves. 58 Cows are PTIC Red Tags from 18 weeks+. 14 head are PTIC blue tag from 6-16 weeks. This is an honest line of young cows in their prime being 4-6 years old and have all raised calves each year prior. Only selling due to drier conditions.
