3 heifers stirred up in the crush when being weighed and mouthed and settled once returned to the mob.

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
1 Head	1 heifer with minor blue scarring in one eye
1 Head	1 heifer with small lump on lower jaw conducive to grass seed penetration, deemed non-detrimental

Assessor Comments: A nice line of well grown Angus & Angus cross heifers possessing the weight, condition & maturity to stand them in good stead for a favourable joining. Heifers were observed to be 'bulling' up in the yards at assessment, & are primed to take the bulls at any time in the near future. These heifers were purchased as one line of yearling heifers, ex Merriwa producer, in store condition, last Spring, & have been grown out & freshened up on agistment property near Wellington, with the intent to join to Angus bulls & retain as future breeders, however agistment is coming to an end. They have demonstrated excellent weight gains in a relatively short amount of time, on only native dried-off grass pastures, which is testament to the doability & breeding quality throughout these heifers. This, combined with the quiet temperament of these heifers makes them attractive candidates to compliment any Angus breeding operation looking to replace worn out cows for potentially no out of pocket changeover
