Assessor Comments	The chance to purchase well bred Poll Hereford heifers that present in store condition after spending the winter in native grass country. They should really take off, if put onto better feed. Heifers are healthy and are all preg tested empty and would be ideal to grow out to join or go into a feedlot. There are 4 Santa x heifers in this lot and 2 head have small horns. One Black baldy . One heifer treated for blight at assessment and will be removed at delivery if not improved. British bred cattle are hard to find at present and these are well known cattle that will perform. Vendor breeds for pigment ,bone & muscling. 31 heavier heifers in same sale
