Assessor Comments	The chance to purchase well bred Poll Hereford heifers that present in store condition after spending the winter in native grass country. They should really take off, if put onto better feed. Heifers are healthy and are all preg tested empty and would be ideal to join or go into a feedlot. Vendor has been breeding for good pigment around eyes, bone and muscling. British bred cattle are hard to find at present and these are well known cattle that will perform. Note :these heifers had a long curfew before weighing and after preg teseting
