| Assessor Comments  | Buyers a great opportunity to secure a line of well bred Angus x Angus Steers. These Steers have returned home from agistment and are only being sold due to making room to more of the vendors cattle coming home from flood country. These Steers present in good store condition and since being home they have freshened up and are doing very well since being on softer feed with an ADG average of 1.4kg per day. These Steers would be ideal for a backgrounder looking for compensatory gains to be had presenting with lots of frame and no a lot of condition. Out of total Steers assessed there are 2 Steers that have old scars on eyes but are not detrimental, 2 Steers were treated at assessment (please take into bidding allowances). |                                            |                                     |
