Assessor Comments	Outstanding opportunity to purchase 70 EU Accredited, Team Te Mania, Angus heifers. These heifers have come through the driest year-to-date period on record and average 223kg full (191-248kg) at assessment. They are ACR recorded (individual EBVs attached) with top Te Mania AI and lease Bulls used annually, focusing on high growth and marbling (IMF). Genetics of this quality are hard to find and not normally sold at these weights, providing a fantastic opportunity to the astute Angus or F1 Wagyu breeder to pickup some of the highest quality genetics in the country. These heifers will improve out of sight and will grow into large frame, deep bodied mature breeders if given the right opportunity. Please note; heifers were seen to be rubbing and approx 15% with ring worm at assessment (see photos) - not considered detrimental. Please note; vendor also has another line of 120 steers in this sale, there is also another lot of similar heifers (Toolong) if looking to make up a B-Double.
