Assessor Comments: A neat 2-decks of August/ September '23 drop Dunoon, The Rock & Milong Angus blood steers that are primed to take out of feeder or kill weights. Ideally weighted between 334-426kg to average 387kg full at assessment with the tail end

	removed. These steers are just starting to hit their straps and clean up in the coat after coming through a tough Autumn and winter and won't take long to hit feeder weights. Steers are also Never Ever and Grasslands accredited if looking to grow out to kill weights. Please note; these steers are located just off the Hume highway for ease of trucking.
