Assessor Comments

96 Santa X Heifers, that have been VET PTIC to Ardrossan Angus bulls being 4 to 7 months in calf giving an expected calving of November to February. A great run of Santa cross heifers that have very good Santa genetics, they present very well as a line and in calf to very good Ardrossan Angus Bulls. These heifers have been identified with RFID numbers and a bang tail 4 - 7 months and 5 feather bangs over 7 months. They have been sourced from excellent cow herds in Central Western Qld. This line includes 4 Baldies, 4 Greys, 3 Brindles. In addition, the vendor is also offering in the same sale, a run of 78 Angus/Santa X heifers, PTIC 2 to 5 months. They were treated with Mectec LV to treat internal & external parasites on 15/7/24. It would be appreciated to note the same-day delivery on both lots.
